Construction: Type VB, 3 Story

MORE ABOUT THE PROJECT

The Enclave Townhomes is an affordable, family oriented, Residential For Sale Townhome project in West Jordan, Utah. It will be constructed in 2 phases. Phase I comprised of (1) 4plex building, (6) 6plex buildings, (2) 8plex buildings, a clubhouse and an outdoor pool.

Phase II will have (4) 8plex buildings and (4) 6plex buildings. Both townhome types feature 2-car private garages, restrooms on each floor and rooftop decks. It has a modern aesthetic with flat roofs, use of brick, steel and stucco. The site is located as part of a transit-oriented development initiative from the city.
